

CHEMIGATION

Chemigation / Check Valves

- Non-slam, immediate sealing prior to flow reversal.
- Large 5" diameter inspection port.
- 3/4" FIPT injection port.
- Fresh water port.
- 5/8" steel dam allows for collection of liquid to low pressure drain.
- Plastic or aluminum air vent, depending on state requirements.
- Low pressure drain.
- Drain plug for easy winterization.
- Pressure rated to 150 psi.
- Chemical injection check valves sold separately.

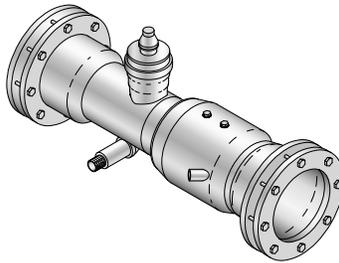

Flange x Flange Chemigation Valve

NI Part #	Size
966240	4"
966243	6"
966245	8"
96632	10"
966248	12"

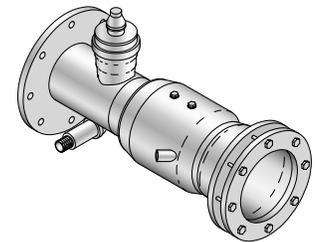

Compression x Compression Chemigation Valve

NI Part #	Size
966341	6"
966342	6-5/8"
966292	8"
966343	8-5/8"
966344	10"
966347	10-3/4"

Flange x Compression Chemigation Valve

NI Part #	Size
966432	6"
966433	6-5/8"
966434	8"
966435	8-5/8"
966436	10"
966437	10-3/4"

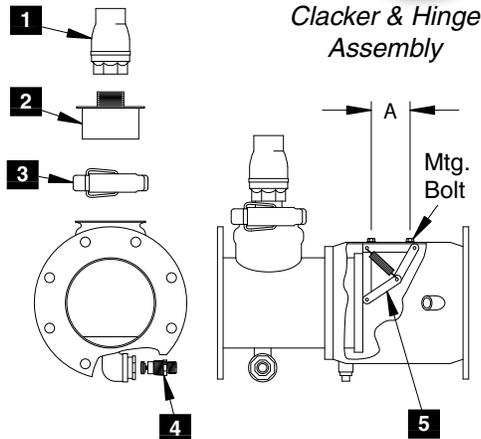

Chemigation Valve Components List

Included w/ these Chemigation Valves:			
Item	NI Part #	*Page Ref.	Description
1	97001	133	2" Air Relief Vent
2	96636	--	Plug, End, 5", with 2" M NPT
3	33074	--	Clamp, 5"
4	49035	123	Chemigation Drain

G

Items Not Included and Sold Separately:	
*Page Ref.	Description
128	Pump Flanges
127	Pump Flange Gaskets
125	Bolt Packages
125	Chemical Injection Check Valves

* Additional information is available on the page number listed.

Chemigation Valve Replacement Parts

Clacker & Hinge Assembly		
NI Part #	Valve Size	Mounting Bolt Spacing*
32504P	4"	2"
32506P	6"	2-1/2"
32506	6"	3-1/2"
32508	8"	3-1/2"
32508P	8"	3-1/2"
32510	10"	3-1/2"
32510P	10"	4-1/2"
32512	12"	3-1/2"
32512P	12"	4-1/4"

* Measure bolt spacing "A" to determine correct clacker and hinge assembly (Item 5) for the valve size.
