

OTHER WATER PRODUCTS

**Fountains and
Fountain Aerators**

Fountains available in a wide variety of spray patterns allowing creation of dazzling waterscapes without increasing operational costs.

Aeration Systems

Aeration is a natural, environmentally-safe and highly effective water quality management tool. It addresses a wide range of water quality problems, including algae build-up, aquatic weeds, bottom sludge, foul odors, insect infestation, and stagnation in lakes and ponds.

**NI offers AquaMaster fountains, aeration systems, and related products.
